

Nexus power

Charge devices with clean solar-generated power via USB-A and USB-C ports, or charge EGO 56V ARC Lithium(TM) batteries (available separately) connected to the EGO Nexus Power Station (requires CH1800 POWER+ Nexus Solar Panel Charger, available separately) via the included MC4 connector.

The Ego Nexus Power Station is highlighted as a unique option designed to replace gas generators, offering durable, clean energy. Its swappable battery system allows for continuous power use, and it can hold up to four batteries. However, charging with solar panels requires a special adapter and is slow. While the Ego Nexus has a high output ...

The EGO Nexus Power Station is giving lithium-ion power supplies a kick in the pants with its unorthodox design. I say unorthodox, but outside of the Kohler enCube and Goal Zero products, there aren't many big names in the battery-powered inverter space taking on 2000-watt gas generator/inverters, so I guess they're all unorthodox. In any case, this is the best ...
