

The Aluminum Plastic Film for Soft Pack Lithium Ion Battery market is experiencing robust growth, projected to reach a market size of \$1448 million in 2025 and exhibiting a Compound Annual ...

Kalmar has unveiled its second-generation lithium-ion (Li-ion) battery solution designed for its range of electrically powered counterbalanced equipment, including reachstackers, empty ...

This milestone reinforces Nano One's position as a national strategic asset in lithium-ion battery production-fortifying a secure, localized supply chain for defense and commercial markets.

Applications include heavy transportation, aircraft, and electric vehicles. The development of safer, more sustainable, and more potent lithium-sulphur batteries for e-mobility is the focus of ...

The thin-film lithium-ion battery market is poised for significant growth, driven by the increasing demand for miniaturized and flexible energy storage solutions in various applications. Let's ...

The global lithium-ion battery market for all-electric vehicles (EVs) is experiencing robust growth, driven by the escalating demand for electric vehicles worldwide. Governments' stringent emission regulations and increasing consumer ...

The global lithium battery hybrid coated separator market is experiencing robust growth, projected to reach \$395 million in 2025 and maintain a Compound Annual Growth Rate (CAGR) of 7.1% ...

The lithium-ion battery chemicals market is experiencing robust growth, driven by the burgeoning electric vehicle (EV) sector and the increasing demand for energy storage solutions in various ...

As of July 1, throwing any device containing a lithium-ion battery in the trash is illegal in New Hampshire. Instead, transfer stations and retailers are offering collection boxes to recycle the ...

Nano One[®] Materials Corp. (‘Nano One’ or the ‘Company’), a process technology company specializing in lithium-ion battery cathode active materials (CAM), has been selected to join ...

A team of Chinese researchers has made a groundbreaking breakthrough to revive aging lithium batteries by injecting a ‘shot’ of lithium ions, potentially extending their lifespan from the typical 6-8 years or 1,000-1,500 ...

The ongoing research and development efforts to enhance binder efficiency and sustainability are expected to further drive market growth, making water-soluble binders a crucial component in the advancement of lithium-ion battery ...

Amita Technology, a local Thai company and the first lithium-ion battery gigafactory in ASEAN, is committed to completing Thailand's electric vehicle (EV) ecosystem by developing battery manufacturing from upstream to ...

North Macedonia's prime minister Hristijan Mickoski said on Friday that an unnamed investor from an unspecified country in the European Union will invest 35 million euro (\$41 million) in the ...

Panasonic has launched one of North America's largest automotive lithium-ion battery factories, targeting 32GWh annual capacity to meet growing EV demands Panasonic has officially opened its new cylindrical lithium-ion battery factory in ...

Kalmar has introduced its second-generation lithium-ion (Li-ion) battery solution for its range of electrically powered counter balanced equipment: reachstackers, empty container handlers ...

Panasonic Energy Co., Ltd., a Panasonic Group company, announced the official opening of its new cylindrical lithium-ion battery factory for electric vehicles (EVs). Located in De Soto, just ...

North macedonia lithium-ion battery technology
