Choose from solar panels, inverters, lithium batteries, charge controllers to solar installation kit. We provide solar finance for rooftop solar installation

There are three main types of solar power systems: On-grid, also known as a grid-tie or grid-feed solar system, is the most used option. These systems do not need batteries and use either solar inverters or micro-inverters connected to the public electricity grid. Any excess solar power that one generates is exported to the grid.
