

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

Updates to the 25D residential solar tax credit, which covers solar panels, solar water heaters and related property like home battery storage systems, have significantly shortened the timeline for homeowners to access the credit.

PSW Power & Automation delivers complete solutions within electrification and renewable energy. The company specializes in the design and integration of ESS and electrical power systems, electrical infrastructure, ...

Heating, ventilation, and air-conditioning (HVAC) systems account for the largest share of energy consumption in European Union (EU) buildings, representing approximately 40% of the final ...

Eaton Technology Summit Data Centres & Energy 2025, Oslo download video 27:33 Session "Data Centre Design for Advancing AI Environment"; Seán A. Timmons, Design & Engineering ...

The Northern Lights CO2 receiving terminal in Øy garden, Norway. Image source: Northern Lights Climate tech innovator Phlair has signed an agreement with NorDAC Kollsnes AS--a ...

Detailed info and reviews on 32 top Energy & Cleantech companies and startups in Norway in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

The Voldsløkka school in Oslo provides a valuable reference model for integrating decentralized onsite renewable energy sources, flexible storage, and energy-efficient design in public buildings.

eCap Marine says it will supply 8 MW of hydrogen fuel cell systems for four zero-emission vessels under construction for Norway's Møre Sjøø and logistics firm Samskip, with deliveries expected ...

Advancing energy storage policies, programs, and regulations to accelerate an equitable clean energy transition. Tomorrow's clean and renewable electric grid will be built on a foundation of flexible, responsive energy storage ...

Corrosion-hit Civaux most modulated 1.5 GW French unit - study (Montel) French utility EDF's Civaux 2 unit, where EDF recently detected fresh stress corrosion, was the most modulated of ...

Oslo energy storage policy updates

Tomorrow's clean and renewable electric grid will be built on a foundation of flexible, responsive energy storage technologies. Supporting the equitable scale-up of those technologies, and the development of applications ...

The project is made possible by pivoting from offshore wind to energy storage, enabled by a significant reduction in battery cost over the past three years and strong market outlook for ...
