Why should you choose a solar PV mounting supplier?

As a solar PV mounting supplier, we provide you with high-quality solar panel ground mounting systems, including solid brackets and support structures so that you can install solar panels on the ground for reliable solar power generation.

Why should you choose akcome Solar frame company?

After 15 years of innovation and development, AKCOME solar frame business has won unanimous recognition from customers by virtue of its high-quality products, customized services, and strong R&D strength. The company maintains long-term and stable strategic cooperation with global high-quality photovoltaic module manufacturers.

What is a solar aluminum frame?

It provided customized frames for over 12GW module manufacturers, accounting for nearly 10% of global market share. Solar aluminum frame is used to secure and seal solar modules, enhance the strength of the module, extend the service life and facilitate transportation and installation.

Which materials are used in solar PV?

Research shows that aluminum is the most widely used material in solar photovoltaic (PV) applications, accounting for more than 85% of most solar PV modules. Products conform to CEE AAMA, GB, BS, EN; CE, DNV, ISO9001 certifications and can provide the TUV and other certifications. Welcome contact

Who is solar racking company?

We are a professional solar racking design, manufacturing, and supply company based in Xiamen, China. We provide high-quality and reliable solar racking products. Our products include solar roof racking, ground racking, rooftop racking, automatic tracking systems, and many other types suitable for different types and sizes of solar power projects.

Does aluminum alloy need aging heat treatment for solar photovoltaic brackets?

The commonly used aluminum alloy series for solar photovoltaic brackets need to undergo aging heat treatment to achieve the required strength. China Aluminum strictly controls the solution treatment and aging heat treatment process to ensure the required strength of the aluminum alloy brackets.

Chalco provide 6061, 6063, 6005, 6082 etc. aluminum for Solar panel frame and Solar PV support with CEE and TUV certification; also provide transformer strip for the electrical system. ...
