

Photovoltaic inverter shipment data fraud

What is the global PV inverter market share?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report.

How did global PV inverter shipments grow in 2023?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market.

What is the solar PV inverter service?

The Solar PV Inverter Service from S&P Global provides comprehensive research on the global PV inverter market, delivering detailed and accurate data and insights into the market for traditional inverters, as well as microinverters and power optimizers in one single subscription package.

Which inverter vendors dominated the global photovoltaic market in 2022?

Huawei and Sungrow remained market leaders in 2022, as they have done since 2015, while AISWEI and SOFAR entered the top 10 ranking. The top 10 global photovoltaic (PV) inverter vendors accounted for 86% of the market - an increase of 4% year-over-year, whereas the top 3 players captured 60% of the market share for shipments in 2022.

What is the global PV inverter & module-level power electronics market share 2023?

Our latest 'Global Solar PV Inverter and Module-Level Power Electronics Market Share 2023' report reveals a buoyant market in 2023, with 48% year-over-year growth in global PV inverter shipments.

Who has the largest PV inverter market shipments in 2022?

In 2022, Huawei had the largest PV inverter market shipments worldwide, accounting for some 29 percent of the market. Huawei was followed by Sungrow Power Supply and Ginlong Solis in the second and third position respectively, based on shipments. Get notified via email when this statistic is updated. *For commercial use only

S&P Global is a leading global information provider and annually publishes rankings for the shipment volume of photovoltaic inverters. Prior to 2011, Chinese companies were not present in the top 10 of this list.

...

The global PV demand of 201 gigawatt alternating current (GWac) in 2022 contributed to 48% growth year-over-year for PV inverters. In terms of inverter shipments, strong growth in Europe, Asia Pacific, and the

...

The global PV inverter market is expected to grow at a CAGR of 13.54% during 2022 to 2028. In 2020, Sungrow Power Supply (Sungrow) surpassed Huawei to become the no.1 industry-leading player in the global PV inverter market (24% ...

The PV inverter market achieved record shipments, growing by 19% to 126 GW in 2019 driven by booming shipments in key markets such as United States, Spain, Latin America, Ukraine and Vietnam. Customer Logins. ...

phase string and three-phase central PV inverters throughout the forecast period with just under half of global three-phase low power (≤ 500 KW) PV inverter shipments expected to be rate at ...

In July, PV Tech reported figures from data from research firm Rystad Energy that there are currently over 40GW of Chinese-made solar modules gathering dust in storage ...

A solar inverter, on the other hand, is a key device in solar photovoltaic systems, primarily functioning to convert DC electricity generated by solar photovoltaic arrays into AC electricity for grid supply or self-use. It ...

Solis is one of the world's largest and most experienced manufacturers of solar inverters supplying products globally for multinational utility companies, commercial & industrial rooftop ...
