

Photovoltaic panels are very cheap

Are cheap solar panels better?

Cheaper solar panels tend to be less efficient, which means they generate less solar electricity and don't last as long as more expensive and better-quality panels. This article will explain what to look for in solar panels of different price ranges, and delve into the pros and cons of cheap solar panels. Where do you want to install solar panels?

What are the cheapest types of solar panels?

Polycrystalline solar panels and thin-film solar panels are the least expensive types of solar panels, typically costing around 20% less than monocrystalline panels. However, they are also less efficient.

Are solar panels a good choice in the UK?

Discover cheap solar panels in the UK and learn about the factors influencing prices. Solar panels can save you money on energy bills and reduce your household's carbon footprint; so it's no surprise that, with more than 17,000 new UK homes installing solar panels every month in 2023, they're an increasingly popular choice for UK homeowners.

What are the best solar panels?

There are a range of high-quality yet relatively low-cost solar panel brands to choose from. For instance, The Jinko Solar Tiger Neo 420W solar panel is rated out Best Overall solar panel. It costs around £87 per panel and includes a 25-year warranty. Other quality brands include Project Solar UK, SunPower, JA Solar and Suntech.

Are affordable solar panels better than premium solar panels?

While affordable solar panels may have lower efficiency levels compared to premium options, it's still important to review the efficiency ratings of different brands. Higher efficiency panels will generate more electricity from sunlight, maximising your energy production.

How much do solar panels cost?

Cheaper panels, like those from Amerisolar and Longi Solar, range from £92 to £246 per unit. They offer an attractive entry point, balancing affordability with decent efficiency. Premium panels, like SunPower's Maxeon series, come at a higher price tag (up to £514 per unit).
