What is the market share of solar PV panels in 2023?

The industrial segment accounted for a dominant share of over 40.0% in the solar PV panels sector in 2023 and is projected to grow at a significant CAGR of 7.6% over the forecast period.

What is the global solar photovoltaic (PV) market share?

Geographically, the global solar photovoltaic (PV) market share is divided into North America, Europe, Asia Pacific, the Middle East & Africa, and Latin America. The Asia Pacific region held the major share of the global market. More than 77 GW of solar capacity will be added in the region in 2020.

Why is the solar photovoltaic market growing?

The government in many countries has imposed stringent carbon emission norms due to which the focus towards the renewable sector is increasing, particularly towards solar photovoltaic generation. This is expected to push this market towards growth during the forecast period. Request a Free sample to learn more about this report.
