

Ministarstvo energetike i rudarstva danas je objavilo Javni poziv za dodjelu trzisnih premija za projekte obnovljivih izvora energije. 11.07.2025. Ministarstvo energetike i rudarstva obavjestava javnost da je, nakon ...

The Podgorica-based company TM Invest plans to build the Bogetici solar power plant in Niksic with a total capacity of 67 MW. This information is included in the environmental impact ...

A new solar energy project will provide the Ulkatcho First Nation with clean energy after a combined investment of \$15,841,000 from the federal and provincial governments. Located in ...

This financial incentive encourages residents to invest in renewable energy while benefitting from lower electricity costs. Energy Production and Environmental Impact The solar plant boasts an ...

The government in Podgorica adopted the urban planning and technical conditions for a solar power plant of 81.1 MW in peak capacity in Pljevlja. The facility in the country's north called Rudnik uglja would be in the Ilino Brdo I ...

Ambitious climate change mitigation initiatives call for a global transition from carbon-intensive fossil fuels to renewable energy alternatives 1. Among these, photovoltaic (PV) solar energy ...

Panama solar park as a model for future projects The solar park in Veraguas is not only significant for its size and capacity but also for its role as a model for future renewable energy projects in ...

After receiving urban-technical approval in September of last year, the local company Solar Global has advanced its plans by submitting a request to the Environmental Protection Agency to ...

Solar power has reached critical mass, according to author and environmental activist Bill McKibben, and it's already transforming the way humans consume energy. Last year, he says, ...

In line with its 40th anniversary, SM Supermalls has unveiled the largest rooftop solar photovoltaic (PV) system on a commercial building in the country at SM City Fairview, reinforcing its ...

If implemented effectively, floating solar could contribute significantly--potentially up to 55%--to the state's overall energy needs by 2030. However, it's crucial to consider environmental trade ...

It has been two years since the Law of Ukraine No. 3220-IX "On Green Transformation" came into force.

# Podgorica solar energy for the environment

Adopted on June 30, 2023, this legislation marked the end of the fixed "green" tariff ...

By António Guterres, Secretary-General of the United Nations Energy has shaped humanity's path - from mastering fire, to harnessing steam, to splitting the atom. Today, we're at the dawn ...

Using solar power means we burn far less coal, oil, and gas. Burning those fuels fills our air with carbon dioxide. That gas traps heat. It warms the planet. It changes weather patterns. Solar ...

What is Solar Energy? ? Sunlight is an important reusable energy source for converting solar energy into electrical energy through solar panels. We can use solar energy as clean energy ...

The recent elimination of renewable energy credits under the Inflation Reduction Act has sparked significant concern among environmental advocates and industry experts alike. This decision, ...

As a city blessed with abundant sunshine, investing in solar energy not only aligns with sustainable practices but also offers a practical solution to offset electricity costs. With a photovoltaic installation, customers in Dubai can ...

Solar pumping reduces energy costs in the field and modernizes irrigation. Multiple public and private initiatives are investing in solar solutions. Featured projects in Spain, Argentina, ...

An off-grid solar system's size depends on factors such as your daily energy consumption, local sunlight availability, chosen equipment, the appliances that you're trying to run, and system configuration.
