

# Portable solar power station reviews

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, EcoFlow, Anker, Goal Zero, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. [What to Know Before Purchasing a Portable Power Station](#)

Are portable solar panels smart?

Portable solar panels aren't all that smart. Whatever blast of sun they are getting will be transmitted directly as power to your power station. So before you purchase a portable solar panel, first look at your power station to see how much solar input it can handle.

Are portable solar panels compatible with my portable power station?

There are two specs to check for when looking to see if your portable solar panel is compatible with your portable power station: power potential and connector/port compatibility. Portable solar panels aren't all that smart. Whatever blast of sun they are getting will be transmitted directly as power to your power station.

What is a portable solar power station?

Portable power stations let you take power wherever you go. A portable solar panel will let you keep it charged up wherever the sun shines. CNET's current favorite is the Jackery SolarSaga 200, thanks to its light weight and sizable solar-charging capacity. If this one doesn't fit your needs or budget, there are plenty of other options.

How much does a solar power station cost?

You're looking for a mid-priced portable power station: EcoFlow's Delta 2 Max is just under \$2000 base, with an additional \$500 - 600 for the solar panels, and another \$1400 for an extra battery. It's pricy, but EcoFlow runs deals occasionally dropping that price a bit.

Should you buy a portable power station?

Larger units can also provide peace of mind in areas where power outages are a concern. Depending on output, many of these portable power stations can sustain household appliances the way a gas generator would. Run out of juice? Attach a few solar panels and you'll start recharging the power station immediately--no emergency fuel run necessary.

The S2000 PRO is ALLPOWERS' newest portable power station, but the brand makes a range of power stations with wattage as low as 200W for camping trips and cookouts. Along with these, you'll find a hefty supply of solar panels from 60W-400W as well as backpack size minis and generator bundles that combine both power station and solar panels.
