Solar energy is energy from the sun that we capture with various technologies, including solar panels. There are two main types of solar energy: photovoltaic and thermal. The "photovoltaic effect" is the mechanism by which solar panels harness the sun's energy to generate electricity. Want to take advantage of solar energy yourself?

Unlock the power of the sun with Solar N Plus PV Solar Solutions. From residential rooftops to commercial installations, our solar PV systems offer exceptional reliability and performance to meet your energy needs.
