

# Ranking of photovoltaic panel production

What are the top solar panel manufacturers?

The top global solar panel manufacturers, based on their scale, include companies such as TW-Solar, JA Solar, AIKO, and others - these manufacturers ship a large number of solar products around the world each year.

Who is the largest solar panel manufacturer in the world?

Tongwei Solar (TW-Solar) is the largest solar panel manufacturer in the world. TW-Solar shipped a whopping 38.1GW of solar modules in 2022, doubling Trina Solar's shipments and achieving an annual revenue of USD \$20.57 billion (≈16.2 billion). In August 2023, Tongwei Group made history as the first solar PV company on the Fortune Global 500 list.

Who makes the most efficient solar panels?

The third largest solar panel manufacturer is Shanghai AIKO Energy Co. Ltd., which exported 30.7GWp of solar modules in 2022. AIKO's sleek black N-type ABC (All Back Contact) monocrystalline glass modules have been consistently ranked as the world's most efficient panels (at 24% efficiency) since their launch in March 2023.

Who makes the most solar panels in 2022?

JA Solar, Canadian Solar, and Risen Energy rounded out the top six, in a year dominated by large-format modules. TrendForce says in a new report that the top six module manufacturers in 2022 shipped around 205 GW to 211 GW of PV panels, accounting for 76% to 78% of 270 GW of module demand last year. All of the main manufacturers are based in China.

Which country makes the most solar panels?

China is undeniably the world leader in the manufacturing of solar system components. In 2022, the Asian country accounted for roughly 78 percent of global solar module production. Other countries in the Asia-Pacific region followed, with Vietnam and Malaysia accounting for an additional 9.2 percent.

Which companies produce the most solar modules in the world?

In the last years, global solar module production has increased considerably. In 2023, the world increased its module production by 37 gigawatts. Some of the largest solar module-producing companies include Longi Green Energy Technology, JinkoSolar, and Trina Solar.

The revenue of the top 20 module manufacturers exceeded 520 billion yuan and the shipments exceeded 290 GW in 2022. The module shipments of the top 20 manufacturers increased by more than 50% year-on-year, of ...

LONGi panels have achieved a notable ranking in the solar panel industry, and the production advantages of
