The provincial government's pause on renewable energy has also prompted some companies to rethink their plans for energy storage in Alberta, said Jordan Dye, acting director of the Business ...

2 days ago&#0183; Second utility-scale solar and BESS project in Alberta to reach ready-to build status in 2024. CALGARY, AB, Nov. 5, 2024 /PRNewswire/ - Westbridge Renewable Energy Corporation (TSXV: WEB) (OTCQX ...

Companies hungry for emissions offsets and renewable energy for their power inputs took note of this, while the procurement drew the attention of international renewable energy developers to the opportunities in Alberta. This kicked off an active power purchase agreement market that employed the same basic contractual instrument as the public ...

Toronto, Ontario, May 4, 2023 - Today, Loblaw Companies Limited (TSX: L; "Loblaw") announced an unprecedented carbon-free energy deal that will see the electricity it purchases for its supermarkets, drugstores, offices and distribution centres in Alberta generated entirely by wind, sun and water. The arrangement, leveraging renewable energy sources, is the first of its kind ...

Landowners in Alberta often have questions about their rights and responsibilities when approached by energy companies interested in developing renewable energy projects on their land. The Farmers' Advocate Office (FAO) actively follows legislative and regulatory changes and emerging trends in the industry to provide up-to-date information ...

The renewable energy industry says it was blindsided by the Alberta government's moratorium on new wind and solar projects, and some executives warned on Friday the move could cause billions of ...

In 2016, the Alberta government set itself an ambitious target to help wean the province off its reliance on fossil fuels for electricity. The Renewable Electricity Act called for 30 per cent of all electricity produced in the province to come from renewables by 2030. For a grid like Alberta's, which was still heavily reliant on coal, the target was significant.
