

The meteoric rise in deals for battery energy storage systems, BESS, is a clear sign of its maturity. In its latest report, analytics and advisory firm Pexapark provided a detailed look into ...

"The remarkable growth of photovoltaics continues," said Klaus Müller, president of the Bundesnetzagentur, underscoring the resilience of the sector. Germany is targeting 215 GW of ...

SolarPower Europe believes that the European Union needs ten times more battery storage by 2030 to support the growth of solar and other renewable energy capacities and maintain the ...

Albania has recently made significant strides in its renewable energy landscape by approving two new solar projects with a combined capacity of 54 MW. These projects, set to be developed in ...

T-Blocks took the stage this July at two landmark events: the Global Family Office Investment Summit in Cannes and Albania's ICT & Innovation Day in Berat. From unveiling the Alpha ...

The platform includes a significant pipeline of renewable energy projects fully aligned with Resalta growth plan. The integration of the local team into Resalta's operations ensures continuity and ...

Fortis Energy received approval from the Albanian government for the construction of a 62 MW solar power plant in the country's southeast. It is allowed to operate the facility for 49 years ...

These results provide crucial information for the renewable energy sector, distribution system operators, and prosumers. For the renewable energy industry, the study highlights the ...

The PV unit is aligned with Albania's Energy Strategy and its National Renewable Energy Action Plan, which targets 490 MW of solar capacity by 2030. The EBRD and the European Union have jointly committed EUR1.5 billion to support a 1 GW ...

According to data compiled by the CyprusGrid tracking platform, the island country curtailed more than 167 GWh of renewable electricity in the first six months of 2025. It was equivalent to last ...

China is the world's largest investor in renewable energy development and is set to produce more than half of the world's renewable energy by 2030. The country has been actively developing ...

Albania has secured funding for a major solar park in Belsh, set to supply clean electricity to over 16,100 households, Deputy Prime Minister and Energy Minister Belinda Balluku announced ...

# Renewable energy growth albania

The project aims to address the vulnerability of Albania's hydro-dominated energy system, which is frequently affected by dry weather conditions. According to Albania 's National Renewable ...

In its Impact Report 2024, Green for Growth Fund outlined how it powers the green transition across Southeast Europe, the Caucasus and beyond - from repurposing coal sites and ...

Today's renewable energy news includes announcements on Voltalia, Low Carbon, SmartestEnergy, X-EIA Energy, among others. EBRD Backs 50 MW Solar Plant Development in Albania. The European Bank for Reconstruction ...

In its Impact Report 2024, the Green for Growth Fund outlined how it powers the green transition across Southeast Europe, the Caucasus and beyond - from repurposing coal sites and ...

Why increasing renewable energy alone can't solve climate crisis Why increasing renewable energy alone can't solve climate crisis In recent years, the world has witnessed a boom in the ...

Today's renewable energy news includes announcements on Voltalia, Low Carbon, SmartestEnergy, X-EIA Energy, among others. EBRD Backs 50 MW Solar Plant Development in Albania The European Bank for Reconstruction ...

The new Selanovtsi solar farm of 59.8 MW in peak capacity near Vratsa was installed alongside a battery energy storage system of 107.3 MWh in capacity. The hybrid energy park, owned by ...

The world's hydroelectric capacity increased 1.7% last year to 1.44 TW, the International Hydropower Association said in its annual report. It highlighted the sharp rise in the pumped ...
