

Explore the leading renewable energy sources shaping a sustainable future, including solar, wind, hydro, geothermal, and bioenergy. Understand their potential to meet global energy demands ...

The CSO report shows that 40.4% of electricity in 2023 came from renewable sources, with wind contributing a substantial 34.1%. Overall, the renewable energy share (RES) of total energy use stood at 15.3%, with electricity making ...

The global switch to renewable energy has passed a "positive tipping point" where solar and wind power will become even cheaper and more widespread, according to two United Nations reports ...

The global switch to renewable energy has passed a "positive tipping point", and solar and wind power will become even cheaper and more widespread, according to two reports. Last year, 74 ...

SLSEA - Sri Lanka Sustainable Energy Authority As the governing body responsible for pioneering the sustainable energy revolution in Sri Lanka, we aim to facilitate the development of our nation's rich energy resources, ...

The addition of 582 gigawatts of renewable capacity in 2024 led to significant cost savings, avoiding fossil fuel use valued at about USD 57 billion. Notably, 91% of new renewable power ...

The figure shows Australian electricity generation from renewable sources in gigawatt hours from 1998-99 to 2022-23. Generation from renewables has increased significantly over the past decade. The composition of ...

California has hit a new record for clean energy. Solar, wind, hydropower and other carbon-free sources made up 67% of the state's retail electricity supply in 2023, the most recent year that ...

Speech on the importance of renewable energy: Renewable energy is the power we get from natural sources like the sun, wind, and water. These sources never run out, unlike coal and petrol, which can run out one day. ...

The cleanest energy source is wind, which produces significantly less carbon emissions compared to fossil fuels. Wind power is a renewable energy source that harnesses the power ...
