

Shell buys solar company

Will shell buy Savion LLC?

Shell New Energies US LLC, a subsidiary of Royal Dutch Shell plc (Shell), has signed an agreement to buy 100% of Savion LLC (Savion), a large utility-scale solar and energy storage developer in the United States, from Macquarie's Green Investment Group. With this acquisition, Shell expects to significantly expand its global solar portfolio.

Will shell buy a US solar project?

The transaction, for which Shell did not reveal the purchase price, will see the energy company pick up a U.S. project development pipeline which reportedly runs to more than 18 GW of solar generation and energy storage capacity across 26 states. The deal is expected to be closed by the end of the month. Image: Royal Dutch Shell Plc

Is Shell's Solar business putting up for sale?

Shell's U.S. solar business Savion has put around a quarter of its assets up for sale, according to a marketing document and industry sources, as the oil major extends a retreat from owning renewables projects under CEO Wael Sawan.

Who invested in Shell Energy Retail?

It has received well over \$1bn in investment from global giants, including investment funds, pension funds and large energy companies. Greg Jackson, CEO and founder of Octopus Energy Group, commented: "Following a stringent process, we are pleased to be acquiring Shell Energy Retail in the UK and Germany."

Will shell New Energies buy Savion?

Clean energy division Shell New Energies announced the move today in a press release issued on the Cision PR platform, but did not specify how much the acquisition will cost or how the deal will be structured. The Anglo-Dutch energy business will buy Savion from the Green Investment Group owned by Australian investor Macquarie.

Does shell energy offer a solar buyback plan?

In addition to a standard 100% renewable electricity plan, Shell Energy offers a plan for electric vehicle drivers that features free charging during off-peak hours and a fixed electricity rate. For homeowners with solar panels, Shell Energy offers a solar buyback plan that gives customers credit for the excess solar power they export to the grid.

Shell is bulking up its global solar portfolio with the purchase of US solar and energy storage developer Savion from Macquarie's Green Investment Group. Savion has more than 18GW of utility-scale solar power and battery storage capacity under development across more than 100 projects in 26 US states, according to Shell.
