About this item. Extremely Light Weight, 1/5th the weight of Lead-Acid. Higher Voltage and more CCA provides better starting performance. Longer Lifespan - Lithium provides 1.5x to 2x the life of lead acid. Makes maintenance easy - Extremely low self discharge rate and can be charged with lead acid charger.

Compared to lead-acid, Lithium Iron Phosphate batteries are also extremely light, have much lower self-discharge, do not sulfate, and are environmentally friendly. This is the heavy duty LFX14A4-BS12 battery. It offers an incredible 210 C.C.A., and the Lead-Acid Equivalent of ...

SHORAI LFX14A4-BS12 12V LIGHTWEIGHT LITHIUM MOTORCYCLE BATTERY. Ultra lightweight design - up to 75% lighter than a lead acid equivalent. Zero sulphation for longer service life. Faster cranking for improved starting performance. Rugged carbon composite casing.

The OEM factory battery finally gave out on my 2021 Kawasaki Ninja 400. I ordered a new Lithium battery from Shorai LFX14A4-BS12. Followed the instructions by charging it before installing. After installing the battery, the bike started right up, and all was good.
