

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions support renewable energy ...

The Health Departments of the Counties of Monterey and Santa Cruz invite the public to review a report of the regional survey conducted in response to the January 2025 battery fire at the Vistra Moss Landing Energy ...

Energy Vault, a gravity-based power storage provider, has begun building on its first commercial-scale project. The 100MWh battery pack is being constructed near a wind generator in Rudong, Jiangsu State, China, just east ...

Remarkably, the assembled cell retains 94.5 % capacity retention after 2000 cycles at an ultrahigh current density of 10 A g⁻¹. This work establishes asymmetric defect engineering as a ...

Under the expanded partnership, GM's battery packs are being integrated into Redwood's energy storage initiatives rather than being dismantled solely for recycling. Some of these batteries ...

Following its approval by Congress, the One Big Beautiful Bill Act was signed by President Donald Trump on July 4, 2025. This Holland & Knight alert summarizes certain key proposals in the ...

The California Energy Commission (CEC) has given the green light to the Darden Clean Energy Project (DCEP), now officially the largest battery energy storage system in the ...

For more analysis of China's user-side energy storage market, refer to the report "2024 Review and 2025 Outlook of China's User-Side Energy Storage Market" published by the China Energy Storage Alliance.
