What are the best solar companies in Hawaii?

Keep reading to learn our picks for the best solar companies in Hawaii. The best solar companies in Hawaii are Tesla, Malama Solar, Independent Energy Hawaii and Sunrun based on our research of nearly 100 companies operating in the state. Top solar installers in Hawaii can cost around \$2.67 per watt or around \$14,500 for a 6kWh solar system.

Is Hawaii a good place to buy solar panels?

Hawaii's solar business is booming, though the state ranks 20th in the nation regarding solar system adoption rates. Hawaii solar companies are everywhere, with over 100 organizations at last count. Forbes Home surveyed more than 2,000 people in 2023 to gauge customer satisfaction levels when it comes to solar panels.

Who is independent energy Hawaii?

Our highly qualified team has been in the solar industry since 2008. With over 2,000 installations under our belt across all islands in Hawaii, you can feel confident that your project is in good hands. Here at Independent Energy Hawaii, we have created a 5-Step Process to make your solar journey as easy as possible.

How many Hawaii homeowners have solar panels?

As for Hawaii, regional survey results for the West Coast indicate that around 17% of homeowners currently have a solar system installed, with a whopping 57% of respondents saying they are in the process of installing panels or plan on doing so in the near future. Here's how that regional data breaks down.

How much does solar cost in Honolulu?

The average price of solar is about \$2.14 to \$3.2 per watt in Honolulu, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Is Hawaii a good place to go solar?

Hawaii ranks 20th in the nation when it comes to solar system adoption, which makes sense given Hawaii's proximity to the equator and the associated sunlight. Hawaii also has its own tax incentive that goes above and beyond the federal credit and there are even programs in place to make it easier for low-income households to go solar.

The costs of rooftop solar panels and energy backup systems have hit an all-time low in Hawaii. 4,5 What's more, Honolulu basks in an average of 264 sunny days per year, 6 so it could be an incredibly cost-effective move if you team up with a Honolulu solar company like Sunrun to gain energy independence. A switch to solar can help boost your control over electricity bills and ...
