

Solar company fights 9m adjustment

Are solar companies causing a 'cost and savings misrepresentation'?

Costs and savings misrepresentations, in particular, have typically spurred the ire of state AGs when solar companies exaggerate their systems' potential to save consumers money, despite financing that may end up costing the consumer more. While cyberthreats to the power sector are expanding, so are the tools to address them.

Why is Ashley Moody suing MC Solar?

TALLAHASSEE, Fla.--Attorney General Ashley Moody is taking legal action against two additional solar companies, Vision Solar and SetUp My Solar, for deceiving Floridians. These latest actions come after announcing a suit against MC Solar last month for deceiving hundreds of consumers.

What is the Florida Attorney General's Office doing about solar panels?

The Florida Attorney General's Office is seeking to permanently enjoin both companies from making unsubstantiated or misleading claims, or engaging in any business practice that misleads consumers about solar panel systems. The actions also seek to recover refunds and other relief for consumers for harms suffered as a result of these practices.

Why did the Minnesota AG file a lawsuit against solar companies?

In April 2022, the Minnesota AG filed a lawsuit against Utah-based solar companies, lenders and company executives, for telling "consumers they were automatically eligible for tax credits when they weren't. . . [and][w]hen consumers tried to get out of these contracts, the companies threatened them with lawsuits and exorbitant termination fees."

Why are solar panels being sued?

Today's legal actions are the result of the Attorney General's Consumer Protection Division investigations revealing the companies misled consumers about solar panel system installation processes, misrepresented pricing and incentives, and in some cases, caused damage to customers' property.

Why are solar companies misrepresented?

Misrepresentations have spurred the ire of state AGs when solar companies exaggerate their systems' potential to save consumers money, despite financing that may end up costing the consumer more.
