Typical applications include streets, roadways, car parks, general outdoor areas, playgrounds, storage yards, footpaths, multi use games areas (MUGA), BMX pump tracks, horse riding arenas and such like.

Are solar street lights a good choice?

Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting. Also, unlike traditional lighting, LEDs emit almost no heat, making them safer to change and more energy efficient.

Are solar street lights energy independent?

Become energy independent today with Sun-Lite. Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting.

Do commercial car parks need solar street lights?

Commercial car parks are almost always paired with CCTV installed. However, it can be challenging to capture sharp, high-quality footage in dark, foggy weather. LED solar street lights will illuminate dull corners to protect your business from potential criminals 24/7.

Why should you choose Sun-Lite solar street lighting?

An increase in carbon dioxide interferes with the Earth's natural climate, increasing the temperature and causing changes in weather patterns. By choosing Sun-Lite Solar street lighting, you can light up your business, surrounding roads and car parks with a safe, clean, green alternative.
