

Solar panel clearance

Can I return solar panels for clearance?

However, solar panels for clearance come with a discount even if you choose to pick them up from one of our fulfillment centers yourself. In this case, you take care of the shipping yourself but you can't return these panels. For more information on clearance sales, please contact our support team at (800) 557-5686.

How do I contact solar clearance sales?

For more information on clearance sales, please contact our support team at (800) 557-5686. Live customer service is available 10 AM - 6 PM EST. Stay tuned Free and useful digest on solar energy. No spam Terms and Conditions Privacy Policy

Do solar panels come with a 30-50% discount?

They come with a 30-50% discount but the Return Policy does not apply to them. Basically, you can get quality solar panels for a lower price but there is a risk they'll break along the way, and in this case, we won't be able to replace them. Any kind of panel from our store can end up in the clearance section.

Where can I buy solar panels?

At altE, we offer solar panels for sale from top brands like Canadian Solar, Q Cells, REC, and our own altE solar panels. Try our sizing calculator for off-grid solar power systems or grid-tied systems to help you determine how many solar panels and how much energy storage you need.

Where can I check the price of residential solar panels?

At A1 SolarStore, you can check the current residential solar panels' price on each panel's page of our website -- it is always up to date. How do residential solar panels work? The way your home solar system is going to work primarily depends on the way you're going to set it up. There are three common configurations for solar systems:

How long do solar panels last?

Many solar panels come with product warranties from 10 to 25 years. Panels slowly degrade over their lifetime. On average a residential solar panel loses about 1-3% of its output in the first year in service and about 0.7-0.8% annually in the subsequent years. The most modern solar panels from Sunpower, REC and Panasonic lose about 0.25% per year.
