What is a Charlotte solar panel system?

Your Charlotte solar panel system is customized for your home, budget, and lifestyle. Our Charlotte solar company uses modern black solar panels, which are higher quality and blend in with your roof. The system also includes a 25-year manufacturer warranty along with a production guarantee, a workmanship warranty, and a roof penetration warranty.

How much does a solar panel cost in Charlotte?

Solar panel costs vary based on system capacity and the technology being used. The typical Charlotte solar array has a capacity of 6.8 kilowatts. Homeowners in the area should expect to pay around \$3,510 per kilowatt; the average Charlotte homeowner spends about \$16,767 on a new solar system after accounting for federal tax breaks.

How do I choose a Charlotte solar company?

When looking into Charlotte solar companies, find those with a minimum of 3.5 out of 5 stars on sites like Google Reviews and similar platforms, in addition to a good reputation on Better Business Bureau (BBB). Read through reviews to understand other homeowners' experiences with a company, and watch for consistent bad reviews.

Should you get a solar loan in Charlotte?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Charlotte, rather than a leasing company retaining them.

How much does a solar panel rebate cost in Charlotte?

Depending on the size of your solar panel system you can expect to receive a rebate between the amount \$4,800 and \$6,000 dollars from Duke Energy. When you add in a tax credit from the federal government and additional savings from our solar company, going solar has become an easy decision for Charlotte residents.
