

Solar panels are good

Are solar panels a good investment?

Buying solar panels is a long-term investment that should help cut your electricity bills and carbon footprint. But will they pay for themselves and earn you money? Solar panels are often marketed as a way to save money on electricity - and sometimes as a way to make money too.

Why should you choose a solar panel system?

Sunlight is free, so once you've paid for the initial installation, your electricity costs will be reduced. Solar electricity is low carbon, renewable energy. A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK.

Are solar panels worth it?

If you're ready to save some cash, while you help save the planet, take a look at the solar panel stats and weigh up the pros and cons of solar panels for yourself to see if they will be worthwhile. Solar panels are very energy-efficient and reduce reliance on the National Grid.

Why is solar energy so popular in the UK?

The popularity of solar panels is skyrocketing. More than 1.3 million rooftops in the UK are now decked out with panels - and with solar panel costs decreasing massively over the past decade, it's more accessible than ever. But why could solar energy benefit you? Well, first and foremost, it can cut your monthly electricity bills by around 70%.

Are solar panels good for the environment?

The primary reason solar panels are good for the environment is down to their carbon-busting technology. In fact, the average residential solar panel system in the UK saves 0.7 tonnes of carbon dioxide each year. So, amidst the din of 'climate emergency' klaxons, it's about time you ditched those grubby fossil fuels. 4. They're silent

Do you need a solar panel system to be energy independent?

If you want to be fully energy independent, you will need more panels and a solar battery big enough to store the excess energy you generate. As long as you install a solar panel system powerful enough to cover your household's energy usage, you can rely on solar electricity for all your energy needs.
