

# Solar panels for garden lighting

Are solar garden lights easy to install?

Solar lights for the garden come in all shapes and sizes, from decorative lanterns and string lights to practical solar wall lights. With easy installation and no need for mains wiring, simply position your solar garden lighting where desired and let the sun get to work. [How Long Do Solar Garden Lights Last?](#)

Where can I put solar powered garden lights?

With simple fixings, you can add our solar powered garden lights wherever they work best, including to your fences. Outdoor lighting is also useful when it comes to security and surveillance, which is why you'll find a great selection of motion detecting PIR security lights here at Toolstation, with ranges of up to six metres.

Are solar lights good for your garden?

Solar lights are environmentally friendly lighting and with a good set, you can create an ambience that lets you enjoy your garden long after dark. Powered by solar panels, they absorb daylight and convert it to electrical energy, charging your lights so they're ready to go at night.

How much do solar-powered garden lights cost?

Solar-powered garden lights usually cost between £30 and £200. Large roof-mounted solar panels cost a lot of money, and not everyone has the finances or roof-space for them. Luckily, there are lots of different ways to use solar panels in your garden, and most aren't that expensive.

Are solar garden lights cost-effective?

Solar garden lights are cost-effective and easy to install. Browse Toolstation's range of Luceco solar powered garden lights and order online.

Can a solar generator be used as a garden light?

Solar generators are often sold as part of a solar panel kit, but they can also be bought separately. Unlike regular garden lights, solar-powered lighting doesn't require single-use batteries or an electric connection because it's powered by the sun.
