

# Solar panels with roof replacement

Should you choose solar during a roof replacement?

That isn't the only way you'll save by choosing solar during a roof replacement. Solar panels last about 25-30 years, which is similar to the lifetime of a roof. By doing both at the same time, you avoid needing to have your solar panels re-installed after replacing your roof, which can save money in the long-run.

How much does it cost to replace a roof before solar?

If you have an asphalt roof over 5-10 years old, you'll probably want to replace it before going solar. Replacing your roof and installing solar costs about \$30,000. If you need to replace your roof after you install solar panels, expect solar panel removal and reinstallation to cost anywhere from \$1,500 to \$6,000.

Can you install solar panels and a new roof at the same time?

When you install solar panels and a new roof at the same time, it's very unlikely you'll need to re-roof during your system's lifetime. Solar panels are more durable than most roofing materials and can extend the life of the roof shingles they cover. Replacing your roof and installing solar panels will probably cost about \$30,000.

Is a new roof compatible with solar panel reinstallation?

It's important to ensure that the new roof is compatible with solar panel reinstallation. Panel reinstallation: Once the roof work is complete, the solar panels need to be reinstalled. This stage might require a reassessment of the panel layout or system configuration to optimize performance on the new roof structure.

Do solar panels go on a shingle roof?

As a roofing contractor, we see our fair share of shingle roofs with solar panels installed on them. In some cases, the solar panels were replaced along with the roof. In other cases, the solar panels were recently installed, while the shingles have been on the roof for quite some time.

Should you get a free roof replacement with solar panels?

It's important to address the notion of free roof replacement with solar panels. A small number of companies may advertise free or no-cost roof replacements with solar panels thanks to partnerships with roofing companies. However, it's important to do your research when considering any such offer.
