

Solar power in kerala

Does Kerala have a solar energy program?

Phase 2 of the program has significantly increased the state's rooftop solar capacity by 127.5 MW. Kerala's solar energy success is credited to pricing interventions and proactive initiatives, enabling consumer access and meeting installation targets.

Who uses solar power in Kerala?

Notably, 90.32% of these consumers are domestic. Commercial users constitute 9.14%, while agricultural and industrial sectors make up 0.13% and 0.41%, respectively. "Solar electricity generation in Kerala has touched 10% of the total power generation.

How many solar panels are installed in Kerala?

Going by the KSEB data, Kerala saw the installation of 1,08,056 solar panels under various schemes, having a total capacity to generate 615.39 MW. As of now, the households are contributing about 90 MW monthly to the KSEB grid. As per the KSEB officials, solar power generation is around 10% of the total electricity generated in the state.

Is solar power underutilised in Kerala?

Solar generation has been underutilised in Kerala, which has set itself a target of 1870 MW of solar power by 2022. As the world transitions to clean energy, India is at an advantage with its large solar generation potential. However, one state where this edge has been underutilised is the southern state of Kerala.

Will solar power help Kerala cover 10% of its electricity needs?

Combined with the 20,000 houses that already put in solar panels under an earlier initiative, the new Soura project will help Kerala cover about 10% of its electricity needs through solar, according to KSEB, the state's electricity board.

How much solar power will Kerala produce in 2024?

THIRUVANANTHAPURAM: Kerala has exceeded its expectations in rooftop solar power production reaching an impressive 541 MW in November, far surpassing the set target of 500 MW by March 2024. Approximately 1.7 lakh households have already availed connections while an additional three lakh individuals are registered and eagerly waiting for their turn.
