Pluto is orbited by five known moons, the largest of which is Charon. Charon is about half the size of Pluto itself, making it the largest satellite relative to the planet it orbits in our solar system. Pluto and Charon are often referred to as a "double planet"; Namesake. Namesake. Pluto is the only world (so far) named by an 11-year-old girl.

Yugen Handmade has created a stylish solar system bracelet that wraps nine planets (including Pluto and the Sun) around your wrist. Traveling out of this world is easier than you think. In fact, you can be "transported" to a place far, far ...

Carry the universe on your wrist with our Solar System bracelet. There are stones to represent each of the planets (even Pluto because we always root for the little guy) along with the Sun and the Moon. The rest of the stones are Blue Goldstone, creating the appearance of a dark shimmering sky. This bracelet is made with: 8mm, high-quality, natural stones silver plated, ...
