Solar system mini set

Obviously, you'll need a solar panel. For this article, we're focusing on 100-watt panels, as they are extremely common for small solar setups. These panels are typically around 4' x 2' and produce - you guessed it - 100 watts of electricity in perfect weather. 50 watt and 150 watt panels are fairly common as well. Before choosing a solar panel, you need to think about ...
