

Solax inverter problems

Description How I got my 3 Growatt inverters integrated in Solax Modbus. I changed the Growatt plugin file with my inverters ID"s. I used for all 3 the "PV | GEN | X1" configuration witch gives ...

Das Wichtigste zuerst Die Marktführer Wechselrichter weltweit sind Huawei und Sungrow. Die bekanntesten Wechselrichter aus Deutschland kommen von SMA, Fronius, Kostal und Kaco New Energy. Deutsche ...

Describe the bug Building the source code from current main breaks the communication between inverter and emulator. No visible events or errors in emulator except that main page indicates ...

Wifi monitorovanie hybridného menica Solax SolaX svojím uzívateľom umožňuje bezdrôtové monitorovanie pomocou Wifi modulu a to pre celúradu menicov SolaX X3 G4. Jednoduché, user friendly užívateľské ...

My first try was to replace the inverter with a smaller RCT 2kw which I had run for 4 years using the same configuration, but originally with an AGM 24 Volt battery pack. That configuration ...

I want to monitor the PV Isolation Resistance for long term prevention to detect if the Isolation of the PV strings is stable or deteriorating. I looked in the Growatt Inverter Modbus RTU Protocol ...

I understood that the Solax inverters have different lock modes that allowe certain settings to be changed. As I was rather new to this integration I wanted to change the GMPPT setting while ...
