As an independent, I don't have access to enterprise software and loathe paying \$20/mo. for Adobe when I only use it to split/combine/markup .PDFs. That said, all the free .PDF products I've found to date are horrendous. Anybody have suggestions for a competent, non-Adobe solution?

The United States said early Saturday that it had negotiated a ceasefire between Israel and Syria's government as new clashes erupted in Syria's Druze heartland following violence that ...

Israel's Health Ministry is preparing the transfer of medical equipment and medications to Sweida's hospital following the recent violent Syrian Druze-Bedouin clashes that have left ...
