

The riverside east solar energy zone

The Brenda Solar Energy Zone (SEZ) is a designated leasing area (DLA) located in Arizona in a semiarid basin with undeveloped scrubland. ... In May 2016, the BLM released the Riverside East Solar Energy Zone Long Term Monitoring Strategy Final Report. The monitoring strategy document (PDF, 16.6 MB) is now available. Mitigation Strategy.

The De Tilla Gulch Solar Energy Zone (SEZ) is a designated leasing area (DLA) located in Colorado in a high-elevation basin within the Rocky Mountains. ... In May 2016, the BLM released the Riverside East Solar Energy Zone Long Term Monitoring Strategy Final Report. The monitoring strategy document (PDF, 16.6 MB) is now available. Mitigation ...

The Los Mogotes East solar energy zone (SEZ) is located in Colorado in a high-elevation basin within the Rocky Mountains. The SEZ is located on BLM-administered land within the La Jara Field Office. Size and Location. In the Draft Solar PEIS, the proposed Los Mogotes East SEZ had a total area of 5,918 acres (24 km²).

In May 2016, the BLM released the Riverside East Solar Energy Zone Long Term Monitoring Strategy Final Report. The monitoring strategy document (PDF, 16.6 MB) is now available. Mitigation Strategy. In the 2012 Solar PEIS, the Bureau of Land Management (BLM) committed to establishing a solar regional mitigation strategy for each solar energy ...

Genesis can produce enough electricity to power 88,000 homes. The dedication drew about 100 state, local and business officials. By 2020, PG& E will be generating about 65 percent of its ...

In May 2016, the BLM released the Riverside East Solar Energy Zone Long Term Monitoring Strategy Final Report. The monitoring strategy document (PDF, 16.6 MB) is now available. Mitigation Strategy. In the 2012 Solar PEIS, the BLM committed to preparing solar regional mitigation strategies (SRMSs) for the solar energy zones (SEZs). These ...

The Chuckwalla Basin is central to the Riverside East Solar Energy Zone and a focus of renewable energy development. New analysis arrives at a smaller volume of underflow into the Chuckwalla Basin aquifer than previously used and does so with more confidence than earlier work. The resulting water balance calculation indicates overdraft ...

1.2 Riverside East Solar Energy Zone . The Riverside East SEZ covers approximately 150,000 acres (607 km²) and is located along an east-west corridor that contains a stretch of I-10 extending between the towns of Desert Center and Blythe in southern California (Figure 1). Several utility-scale solar energy projects are under

The riverside east solar energy zone

Riverside East SEZ covers approximately 150,000 acres (607 km²) and is located along an east-west corridor that contains a stretch of I-10 extending between the towns of Desert Center and Blythe ...

This report describes long term monitoring (LTM) requirements, including requirements for visual resources and night sky resources monitoring, for the Riverside East Solar Energy Zone (SEZ ...

The Afton Solar Energy Zone (SEZ) is a designated leasing area (DLA) located in New Mexico in a semiarid basin with undeveloped scrubland. ... In May 2016, the BLM released the Riverside East Solar Energy Zone Long Term Monitoring Strategy Final Report. The monitoring strategy document (PDF, 16.6 MB) is now available. [Mitigation Strategy](#).

The Project site consists of approximately 2,500-acres of Bureau of Land Management (BLM)-administered lands within the Riverside East Solar Energy Zone (SEZ) and within the Desert Renewable Energy Conservation Plan (DRECP) Development Focus Area (DFA). [Points of Contact](#) [Miriam Liberatore](#)

The Riverside East Solar Energy Zone (SEZ) is a designated leasing area (DLA) located in California on BLM-administered land within the Palm Springs South Coast Field Office. [Size and Location](#). [Physical Characteristics](#). [Technical ...](#)

Archaeological field work was undertaken at the Riverside East Solar Energy Zone (SEZ) in Riverside County, CA from May 21 to August 23, 2012. The Class II sample survey was completed by SWCA Environmental Consultants (SWCA) under contract with the Bureau of Land Management (BLM). A total of 5,948 acres, approximately 5% of the SEZ, was surveyed

The Riverside East Solar Energy Zone is a vast area in southern California designated for large-scale solar development. The Bureau of Land Management (BLM) is charged with monitoring wildlife in this area to minimize the effects of the solar production on wildlife species. However, consistent monitoring of wildlife across vast spatial ...

This dataset approximates Eastern Riverside areas available for utility-grade solar energy development under the Solar Energy Zone Alternative of the Solar Energy Development Programmatic Environmental Impact Statement (PEIS). Refer to the Solar Energy Development PEIS for more details.

The Los Mogotes East Solar Energy Zone (SEZ) is a designated leasing area (DLA) located in Colorado in a high-elevation basin within the Rocky Mountains. ... In May 2016, the BLM released the Riverside East Solar Energy Zone Long Term Monitoring Strategy Final Report. The monitoring strategy document (PDF, 16.6 MB) is now available. [Mitigation ...](#)

1.2 Riverside East Solar Energy Zone . The Riverside East SEZ covers approximately 150,000 acres (607 km²) and is located along an east-west corridor that contains a stretch of I-10 ...

The riverside east solar energy zone

Authorized and Pending Solar Energy Projects within the Riverside East SEZ and a 2-mi (3-km) Buffer around these Projects That Will Serve as One of the Three Solar Development Impact Sampling Strata

The Gold Point Solar Energy Zone (SEZ) is a designated leasing area (DLA) located in Nevada in the Lida Valley in an undeveloped rural area. ... In May 2016, the BLM released the Riverside East Solar Energy Zone Long Term Monitoring Strategy Final Report. The monitoring strategy document (PDF, 16.6 MB) is now available. [Mitigation Strategy](#).

Encompassing about 2,500 acres of public land administered by the Bureau of Land Management, this project is within the Riverside East Solar Energy Zone and is a part of a Development Focus Area of the Desert Renewable Energy Conservation Plan. The Final EIS and proposed CDCA Plan Amendment was published in 2021.

2021030426 - 2021-03-18 - NOP - Oberon Renewable Energy Project. [Skip to Main Content](#). ... (CDCA) Planning Area, within the Riverside East Solar Energy Zone pursuant to the BLM's Solar Programmatic Environmental Impact Statement and associated Record of Decision (ROD), and within a Development Focus Area (DFA) pursuant to the Desert Renewable ...

An overview of the Riverside East solar energy zone (SEZ) including its size, location, characteristics, maps, and panoramas. For information regarding BLM's 2023/2024 Solar Programmatic EIS, visit the [BLM National NEPA Register](#) .

The Riverside East Solar Energy Zone, in eastern Riverside County, was designated as a priority area for utility scale solar energy development in the BLM's 2012 Western Solar Plan. The area has already seen four utility-scale ...

The Fourmile East solar energy zone (SEZ) is located in Colorado in a high-elevation basin. The SEZ is located on BLM-administered land within the La Jara Field Office. [Size and Location](#). In the Draft Solar PEIS the proposed Fourmile East SEZ had a total area of 3,882 acres (16 km ²).

The Imperial East solar energy zone (SEZ) is located in California in gravel flats within the Sonoran Desert. The SEZ is located on BLM-administered land within the El Centro Field Office. [Pending Applications](#). There is one pending solar application within the Imperial East SEZ (Application 49884, for a 4,000 acre power tower facility).
