

The solar shop

Is shopsolar a good solar system?

ShopSolar's Delta Pro and roof-mounted panels were the perfect solution. Setup was easy, and the kit included everything needed. The Delta Pro powers my cameras, lights, laptop, and a small fridge with impressive battery capacity. You folks have been wonderful guiding me through the ins and outs of going solar.

Why should you buy solar panels from the solar store?

At The Solar Store we know that with the improvements in modern off-grid inverters, energy efficient lighting, propane and DC appliances, cheap price of quality solar panels and careful design considerations means stand-alone systems need not rely on backup fossil fuel generators.

Where can I buy solar power?

Call Us: 877-242-2792 ShopSolar.com is the #1 online source for solar power solutions. With over 50,000+ happy customers, we're on a mission to make solar simple, transparent and affordable. We specialize in the sale and installation support of complete solar kits, solar generators, inverters, batteries and more.

Should I buy solar panels from A1 solar store?

If you are looking to purchase Solar Panels, I would highly recommend A1 Solar store. I did not have much knowledge on Solar Panels and/or the benefits of them. A1 SolarStore customer service and knowledge of their panels was outstanding. My purchase of the Silfab 400W panels was made easy and quick with a pick up location right in my area.

Are solar panels sold separately?

*Solar panels are not sold separately. Grid tie inverters convert solar DC power to home-friendly AC power and provide net metering capability. Batteries optimize cost savings by storing surplus energy when rates are lowest and utilizing it during peak demand times. They also serve as a reliable backup power source during outages.

These all-inclusive solar kits are designed for simplicity, featuring everything you need for a seamless setup and installation. With high-performance lithium battery options and versatile connectivity options, our solar power systems can be connected to solar, wind, backup generator, or utility grid sources.
