

Traxxas velineon vxl 3m brushless power system

The Velineon VXL-3m forward/reverse electronic speed control simplifies brushless technology with easy, built-in profiles and intuitive programming. The VXL-3m uses advanced circuit design that allows sensorless brushless motors to operate with the smoothness and precision of the best brushed systems.

The Velineon VXL-3m(TM) forward/reverse electronic speed control simplifies brushless technology with easy, built-in profiles and intuitive programming. The VXL-3m uses advanced circuit design that allows sensorless brushless motors to operate with the smoothness and precision of the best brushed systems.

Velineon VXL-3m brushless power system - includes waterproof VXL-3m ESC and Velineon 380 motor. Like its larger 1/10 scale counterpart, the 1/16 scale Velineon VXL-3m electronic speed control and 380-size 4000 Kv brushless motor are carefully engineered to work seamlessly together for maximum power flow.

This is the Traxxas Velineon VXL-3m forward/reverse brushless electronic speed control/Velineon 380 motor combo, and is intended for use with 1/16 scale vehicles. VXL-3M Waterproof Electronic Speed Control #3375: The Velineon VXL-3m forward/reverse electronic speed control simplifies brushless technology with easy, built-in profiles and ...

The VXL-3m(TM) uses advanced circuit design that allows sensorless brushless motors to operate with the smoothness and precision of the best brushed systems. It sets up, operates, and programs just like the Traxxas XL-5(TM) family of ESCs so there's no tricky new procedures to learn.

This is the Traxxas Velineon VXL-3m Brushless Power System for use in Traxxas 1/16 Scale vehicles. This will not fit 1/10 scale vehicles. Like its larger 1/10 scale counterpart, the 1/16 scale Velineon VXL-3m electronic speed control and 380-size 4000 kV brushless motor are carefully engineered to work seamlessly together for maximum power flow.

Built specifically for Traxxas 1/16 scale models, the VXL-3m speed control and Velineon 380 motor represent the latest in brushless technology. Fully LiPO compatible with low-voltage detection for 2S and 3S packs and rated for 6-12 NiMH cells, this potent, powerful combo provides precise throttle control and blistering top speed.

The Velineon VXL-3m forward/reverse electronic speed control simplifies brushless technology with easy, built-in profiles and intuitive programming. The VXL-3m(TM) uses advanced circuit design that allows sensorless brushless motors to operate with the smoothness and

Traxxas velineon vxl 3m brushless power system

This is the Traxxas Velineon™ VXL-3m forward/reverse brushless electronic speed control/Velinion 380 motor combo, and is intended for use with 1/16 scale vehicles. The Velineon ESC simplifies brushless technology with easy, built-in profiles and intuitive
