

# Where to buy solar

Where can I buy solar equipment?

Like wholesale resellers, Amazon is another way to purchase solar equipment directly. Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.).

Where can I buy solar panels?

For some, buying equipment directly from Amazon or wholesale resellers is the best place to buy solar panels and the most affordable option. For others, a large, national company may be able to provide you with a better deal than you can find on the EnergySage Marketplace. Using the EnergySage marketplace, buying solar panels is easy.

Where can I buy a solar panel kit?

Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.). Most solar panel kits are best suited for smaller applications, such as an RV or boat instead of a home.

How much do solar panels cost?

Some solar panels can run as high as \$600. The total number of solar panels you need will depend on your home's size and energy needs. Remember, solar panel prices do not include the cost of inverters, racking, and other necessary parts for a complete system installation. That's why it's financially wiser to get a complete solar kit.

Should I buy a solar panel system from a large company?

One popular option for installing a residential solar panel system today is contracting through a large solar company, such as SunRun. There are certain advantages to buying a solar panel system from a large solar company.

Should you buy a home with solar panels?

In most cases, the performance and product warranties will transfer in a home sale and continue protecting the system. However, it's worth establishing that during the sale. Buying a house with solar panels is getting more common and routine, and is an excellent back door method of buying solar panels.
