

U.S. farmers on Tuesday slammed a project that got an up-to \$4.9 billion loan guarantee from former President Joe Biden's administration to transmit electricity from wind and solar farms in ...

Nevada regulators approved several proposals from NV Energy, including the conversion of a coal plant to natural gas and the construction of a large solar-plus-storage facility, despite criticism from clean energy advocates. ...

The State Bureau of Consumer Protection has raised the alarm after noting NV Energy tried to pass on the costs of luxury hotels stays, overseas trips, limos, food, and alcohol on to ratepayers.
