

Yingli photovoltaic panel outer packaging

How to handle Yingli Solar PV modules?

Yingli Solar PV modules are heavy, and should be handled with care. PV modules shall be handled at the frame; never use the junction box or cables as a grip. Do not exert mechanical stress on the cables. Never step on PV modules or drop or place heavy objects on them.

Can Yingli Solar PV modules withstand snow?

Yingli Solar PV modules are designed to withstand high snow loads. However, if removing snow is desired to enhance production, use a brush to gently remove snow. Do not try to remove frozen snow or ice from PV modules. The dismantling of PV systems must be performed with the same care and safety precautions used during the initial installation.

Are Yingli Solar PV modules fire resistant?

Yingli Solar PV Modules have a Class C fire resistance rating in accordance with the IEC 61730-2 certification. When PV modules are mounted on rooftops, the roof must have a fire resistant covering suitable for this application. PV modules are electrical generating devices that may affect the fire safety of a building.

Who is covered by the Yingli solar installation manual?

This manual applies to photovoltaic modules ("PV modules", also commonly known as solar panels) manufactured by Yingli Energy Development Company Limited ("Yingli Solar"), and is explicitly written for qualified professionals ("Installer" or "Installers"), including without limitation licensed electricians and RAL Certified PV Installers.

Does Yingli Solar recycle electrical appliances?

Yingli Solar is a member of PV Cycle, the European association for voluntary take back and recycling of PV modules. Please contact PV Cycle at www.pvcycle.org for details regarding the recycling process. Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities.

Can Yingli Solar PV modules be cleaned with a pressure washer?

Water with high mineral content may leave deposits on the glass surface and is not recommended. Yingli Solar PV modules may contain a hydrophobic anti-reflective coating on the glass surface to enhance power output and reduce dirt and dust buildup. In order to avoid module damage, do not clean PV modules with a power washer or pressure washer.

MY Solar Technology Co., LTD. (MYPVTECH) is a major member of MY Solar Group (MY Solar), founded in 2010. MY SOLAR is a professional manufacturer engaged in the research & ...

Yingli YL400-D-37e 400Wp The Yingli YL400-D-37e is a 400Wp monocrystalline solar panel * Brand new with manufacturer's warranty * with 108 monocrystalline half cells * Black Frame / Black Foil Color * 1.1m

Yingli photovoltaic panel outer packaging

cable length * Sold only in ...

Yingli photovoltaic modules must be installed in suitable structures or other appropriate locations for module installation (such as ground, rooftops, etc.), and must not be installed on any ...
